

The SEI – Roanoke Chapter invites you to join us for the following Seminar:

GUIDELINES TO ADAPTIVE REUSE

Date/ Agenda: December 1st (Thursday), 2016
5:30 P.M. – Social
6:00 – 7:00 P.M. – Presentation and Dinner

Place: Blue 5 Restaurant
Red Room (Downstairs)
312 2nd St SW
Roanoke, VA 24011

Description: This presentation will provide an overview of the four stages of an adaptive reuse project: document review, field investigation, structural analysis and design, and construction administration. For each stage, case studies of projects in Roanoke will be provided demonstrating the challenges architects and engineers typically face in adaptive reuse projects. Selected antiquated structural systems will be discussed, including combination (tile and concrete) floors, draped mesh floors, proprietary reinforced concrete systems, cast iron construction and foundations. AIA credits are available to all participants.

Presenter: Eric Ober, PE, SE
Senior Project Manager – Simpson, Gumpertz & Heger

Cost: Presentation is Free
Each attendee will be responsible for their dinner cost. A cash bar will also be provided in the Red Room.

Please **RSVP to SEI Roanoke Chapter** via e-mail to SEIRoanokeChapter@gmail.com by noon on November 25, 2016.
